E-mail and Anti-Spamming Policy

Users may not send unsolicited bulk messages over the Internet (i.e., "spamming") and must comply with all relevant legislation and regulations on bulk and commercial e-mail, including the CAN-SPAM Act of 2003.

Mass Mailings – Users may not send mass unsolicited e-mail, which is email that is sent to recipients who have not Confirmed Opt-In or Closed-Loop Opt-In in to mailings from the User. Users who send mass mailings must maintain complete and accurate records of all consents and opt-ins and provide such records to ServerTune upon its request. If a User cannot provide positive and verifiable proof of such consents and opt-ins, ServerTune will consider the mass mailing to be unsolicited.

Mailing Lists – Users are prohibited from operating mailing lists, listservs, or mailing services that do not target an audience that has voluntarily signed up for e-mail information using a Confirmed Opt-In or Closed-Loop Opt-In process or that has made their e-mail addresses available to a User for distribution of information. Users who operate mailing lists must maintain complete and accurate records of all consents and Confirmed Opt-In or Closed-Loop Opt-In elections and provide such records to ServerTune upon its request. If a User cannot provide positive and verifiable proof of such consents and Confirmed Opt-In or Closed-Loop Opt-In elections, ServerTune will consider the list mailing to be unsolicited. Any User-maintained mailing list must also allow any party on the list to remove itself automatically and permanently.

Operating ServerTune Service on behalf of, or in connection with, or reselling any service to persons or firms listed in the Spamhaus Register of Known Spam Operations database at www.spamhaus.org shall constitute a violation of this AUP.

IP Allocation

ServerTune owns each IP address that it assigns to a Customer. A Customer shall not use IP addresses that were not assigned to it by ServerTune. ServerTune reserves the right to suspend the network access of any server utilizing IP addresses outside of the assigned range.

ServerTune reserves the right to comply with any Investigation without notice to a User. Customers shall not be entitled to a refund or any service credits, and ServerTune shall not be in default under any agreement for ServerTune Services, if its compliance with any Investigation causes a User to incur downtime or requires the sequestering of all or a portion of the servers. ServerTune also reserves the right to disclose information relating to Users and their use of ServerTune Services, ServerTune Network or its physical infrastructure or information transmitted, owned by or stored by or on behalf of any User, if such information is disclosed in connection with an Investigation or in order to prevent the death of or bodily harm to any individual, as determined by ServerTune in its sole discretion.
